

# IS YOUR AGENCY A POSITIVE SPACE?

**Positive Spaces** are welcoming environments where Lesbian, Gay, Bisexual, Trans, Queer, Questioning, Intersex, Asexual, Pansexual, Genderqueer, etc. (LGBTQ+) individuals are able to access culturally inclusive services with dignity, respect, and free from discrimination based on sexual orientation, gender identity, and gender expression.

By working to create inclusive spaces agencies can begin the process of ensuring that everyone has the chance to access service in a safe, welcoming environment– which is a human right.
